PROFESSIONAL SUMMARY

Final-year B.Sc. in CSE student at United International University (UIU) with solid foundations in Data Structures, Algorithms, Object-Oriented Programming (Java, Dart), and relational database systems (MySQL). Hands-on experience developing client-server socket messaging systems and full-cycle software applications with clean architecture. Active algorithmic problem solver on LeetCode and HackerRank, eager to contribute to collaborative software engineering teams.

TECHNICAL SKILLS

Core Languages:	Java, Dart, SQL (MySQL), C/C++ (Academic), JavaScript
Software Fundamentals:	Data Structures & Algorithms, Object-Oriented Design (OOP), Modular Architecture
Databases & Systems:	MySQL (Schema Design, Queries), SQLite, MongoDB, Supabase, Firebase Realtime DB
Networking & Backend:	Java TCP Socket Programming, RESTful APIs, Node.js Basics
Development Tools:	Git, GitHub, VS Code, IntelliJ IDEA, Android Studio, Postman

EXPERIENCE

Independent Software Developer **June 2024 – Present**

Academic & Personal Software Projects | Dhaka, Bangladesh

- Develop software applications using Java, Dart, and SQL, applying object-oriented programming and modular design principles.
- Implement RESTful API integrations and client-server communication for application workflows.
- Design and query relational databases using MySQL for structured data management.
- Use Git and GitHub for version control, debugging, and project maintenance.

FEATURED SOFTWARE ENGINEERING PROJECTS

1. Chat Application – Client-Server Socket Messaging System *Java, TCP Sockets, Multi-Threading, Swing GUI, OOP*

- Implemented a bidirectional client-server desktop messaging application in Java using TCP sockets (ServerSocket, Socket) and I/O streams for real-time text communication.
- Integrated background network listener threads for asynchronous message handling alongside a modern Java Swing GUI, preventing interface blocking during active communication.

GitHub: github.com/AhnafwadudArnab/Chat-Application

2. Amar Rail Sheba – Railway Reservation & Real-Time Tracking System *Flutter 3.x, Firebase Realtime DB, GetX, Google Maps SDK, PDF & QR*

- Structured normalized cloud database schemas and security rules in Firebase Realtime Database to manage 60+ stations, seat availability, and strict weekly booking quotas.
- Engineered reactive client-side booking simulation with GetX state management, live train route mapping via Google Maps SDK, and automated PDF ticket generation with QR validation.

Live Web Demo: amar-rail-sheba.vercel.app | **GitHub:** github.com/AhnafwadudArnab/Amar-Rail-sheba

3. Foodash – On-Demand Food Delivery Application *Flutter, Dart, Firebase (Auth & Firestore), Provider*

- Built a cross-platform food ordering application featuring categorized menu search, dynamic item filtering, and an interactive persistent shopping cart & checkout flow.
- Integrated Firebase Authentication for secure user sessions and Cloud Firestore collections for real-time menu data synchronization and order placement records.

GitHub: github.com/AhnafwadudArnab/Foodash_--_Food_Delivery_App

4. RapidTest App – Medical Diagnostic & Result Collection Client *Flutter, Firebase (Auth & Firestore), Cloudinary, Mobile Scanner*

- Engineered a field data collection client for rapid diagnostic tests featuring camera photo evidence attachments and live test kit QR code scanning.
- Configured Cloud Firestore for structured dataset storage (record IDs, kit data, results, timestamps) and Cloudinary for remote kit image synchronization.

EDUCATION

B.Sc. in Computer Science and Engineering | United International University (UIU), Dhaka 2022 – Present (Expected: 2026)

Key Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems (SQL), Software Engineering

Higher Secondary Certificate (HSC) – Science | Amirjan College, Dhaka 2020 – 2021

Secondary School Certificate (SSC) – Science | Annada Government High School, Brahmanbaria 2019

PROBLEM-SOLVING & ACHIEVEMENTS

- **1st Runner Up — CSE Project Show (Summer 2025):** Awarded for "Missing Diary" (Community Sighting & Missing Person Platform), UIU System Analysis & Design Lab.
- **Competitive Programming & Certifications:** LeetCode (leetcode.com/u/OTjQKVxs6f) • HackerRank (hackerrank.com/profile/ahanafwadudarnob) • Java Basic Certificate.
- **Languages:** Bangla (Native) • English (Professional Working Proficiency)
