SUMMARY

Computer Science student and Flutter Developer with hands-on experience building cross-platform mobile applications using Flutter and Dart. Experienced in integrating REST APIs and Firebase, working with Node.js, PHP, MySQL, Cloud Firestore, and Supabase, and developing responsive, reusable UI components. Familiar with Provider, GetX, and MVC architecture, with project experience in railway booking, e-commerce, food delivery, and camera-based applications.

TECHNICAL SKILLS

Languages: Dart, Java, C, C++

Flutter & Mobile Development: Flutter, Material Design, Responsive UI, Navigation, Reusable Components, Mobile-First Development

State Management & Architecture: Provider, GetX, MVC

Backend & API Integration: REST APIs, JSON, Node.js, PHP, Firebase Authentication

Databases & Backend Services: MySQL, Firebase, Cloud Firestore, Supabase

Development Tools: Git, GitHub, Android Studio, VS Code, Postman

UI/UX: Wireframing, User Flow Design, Responsive Design

EXPERIENCE

Flutter Developer | Independent & Freelance

June 2024 – Present

- Developed Flutter applications and cross-platform mobile interfaces for railway booking, food delivery, e-commerce, and utility applications, including navigation, forms, and interactive workflows.
- Integrated REST APIs and Firebase services for authentication, data retrieval, JSON handling, and application interactions.
- Built responsive layouts and reusable UI components with validation feedback and loading, empty, and error states.
- Structured Flutter codebases with Provider-based state management and MVC architecture to separate UI concerns from application logic.

PROJECTS

Amar Rail Sheba | Railway Management System

Flutter, REST APIs, Node.js, MySQL

- Developed Amar Rail Sheba in Flutter with train search, route and schedule browsing, seat selection, and reservation workflows using responsive UI and reusable components.
- Integrated the Flutter client with Node.js REST APIs and MySQL to retrieve and manage train, schedule, seat, and booking data.

Live: amar-rail-sheba.vercel.app | **GitHub:** github.com/AhnafwadudArnab/Amar-Rail-sheba

ElectroZoneBD | Online Electronics Shop

Flutter, PHP, MySQL, REST APIs

- Developed product browsing, cart management, and order-placement workflows in Flutter using PHP, MySQL, and REST APIs.
- Integrated REST APIs with PHP and MySQL to retrieve product data and submit order data.

Live: electrozonebd.com | **GitHub:** github.com/AhnafwadudArnab/Electrozonebd

Foodash | Food Delivery App

Flutter, Firebase, REST APIs

- Developed Flutter workflows for food and product discovery, cart management, checkout, and order tracking.
- Integrated Firebase and REST APIs with reusable UI components and loading, empty, and error states to support the food-ordering experience.

Face Detection App | Camera-Based Application

Flutter, REST APIs, Python, OpenCV

- Developed Flutter camera and image-capture interfaces with prediction-result screens for a camera-based face-detection application.
- Connected the Flutter frontend to REST API responses in a Python and OpenCV workflow, representing capture, processing, and result states throughout the prediction flow.

EDUCATION

B.Sc. in Computer Science and Engineering

2022 – Present

United International University (UIU), Dhaka

Higher Secondary Certificate (Science)

2020 – 2021

Amirjan College, Dhaka

Secondary School Certificate (Science)

2019

Annada Government High School, Brahmanbaria

ACHIEVEMENT

- 1st Runner-Up, CSE Project Show — Summer 2025**

CERTIFICATIONS

- Flutter** — Udemy, 2025
- Dart** — Udemy, 2024
- Java** — HackerRank, 2023
- C/C++** — HackerRank, 2023

PROBLEM-SOLVING PROFILES

- HackerRank:** hackerrank.com/profile/ahanafwadudarnob
- LeetCode:** leetcode.com/u/OTJQKVxs6f

LANGUAGES

Bangla: Native | **English:** Intermediate
