PROFESSIONAL SUMMARY

Final-year B.Sc. in Computer Science and Engineering student at United International University (UIU) with hands-on experience in cross-platform mobile application development using Flutter and Dart. Proficient in Provider and GetX state management, RESTful API integration, Firebase Authentication, and Cloud Firestore. Skilled in developing responsive mobile applications with reusable UI components, efficient backend integration, and structured error handling. A collaborative team member with strong problem-solving skills, passionate about building scalable, user-friendly applications and delivering high-quality software solutions.

TECHNICAL SKILLS

Languages:	Dart, SQL
Cross-Platform Development:	Flutter, Android, iOS, Custom Widgets, Responsive UI
State Management:	Clean Architecture, GetX, Provider
Backend & APIs:	Cloud Firestore, Cloudinary, Firebase Analytics, Firebase Authentication, Node.js, RESTful APIs
Databases:	MongoDB, MySQL, SQLite, Supabase
Development Tools:	Android Studio, Debugging & UI Testing, Figma, Git, GitHub, Postman, Vercel, VS Code

PROFESSIONAL EXPERIENCE

Flutter & Cross-Platform Developer **June 2024 – Present**

Independent & Contract Development | Dhaka, Bangladesh

- Architected and deployed 4+ cross-platform mobile applications using Flutter and Dart for Android and iOS, building 50+ reusable custom widgets adhering to clean code standards.
- Implemented Provider and GetX state management across reactive application flows, optimizing build cycles and reducing UI rendering re-renders by 30%.
- Integrated 15+ RESTful API endpoints and Firebase services (Auth, Cloud Firestore, Analytics) to track app metrics, implementing client-side caching to decrease network latency by 25%.
- Engineered asynchronous workflows, form validation, and centralized exception handling, collaborating in cross-functional teamwork to maintain a 99%+ crash-free session rate across testing environments.

PROJECTS

1. Amar Rail Sheba – Railway Ticketing & Tracking System *Flutter, Dart, GetX, Firebase, Google Maps SDK, PDF & QR*

- Developed a cross-platform mobile railway ticketing application featuring train schedule search across 60+ stations in all 8 divisions, interactive coach seat selection grid, and weekly ticket quotas.
- Integrated Google Maps SDK with station markers and live train tracking, backed by Firebase Auth and Realtime Database for reactive booking simulation and automated PDF tickets with QR verification.

Live Web Demo: amar-rail-sheba.vercel.app | **GitHub:** github.com/AhnafwadudArnab/Amar-Rail-sheba

2. Foodash – A Food Delivery Application *Flutter, Dart, Firebase (Auth & Firestore), Provider*

- Built a cross-platform food delivery mobile application featuring restaurant menu browsing across 10+ categories, dynamic search, and an interactive persistent cart & checkout workflow.
- Integrated Firebase Authentication for secure customer sign-in and Cloud Firestore for sub-second real-time menu data synchronization, managing 100+ simulated active catalog items.

3. RapidTest App – Medical Diagnostic & Result Collection Client *Flutter, Firebase (Auth & Firestore), Cloudinary, Mobile Scanner*

- Engineered a medical diagnostic reporting application enabling field healthcare staff to submit test records with live camera photo evidence and rapid QR code kit scanning.
- Integrated Cloud Firestore for structured dataset storage and Cloudinary for image compression, reducing upload payload sizes by 40% across 500+ diagnostic submissions.

GitHub: github.com/AhnafwadudArnab/RapidTest_app

4. ElectroZone BD – Cross-platform E-Commerce Application *Flutter, Dart, REST APIs, Cached Network Images*

- Developed the cross-platform mobile client in Flutter for an active electronics e-commerce store, supporting 50+ product categories, dynamic search, and shopping cart flows.
- Connected mobile screens to production PHP and MySQL backend hosted on cPanel via REST APIs, incorporating cached image rendering and offline persistence to cut data usage by 35%.

EDUCATION

Bachelor of Science in Computer Science and Engineering | United International University (UIU), Dhaka 2022 – Present (Expected: 2026)

Higher Secondary Certificate (HSC) – Science | Amirjan College, Dhaka 2020 – 2021

Secondary School Certificate (SSC) – Science | Annada Government High School, Brahmanbaria 2019

CERTIFICATION & LANGUAGES

- **Certification:** Flutter Mobile Application Development – Simplilearn (2025)
- **Languages:** Bengali, English
